-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

Applicant's arguments filed August 9, 2004 have been fully considered but they are not persuasive. The Amendment submitted by Applicant does not overcome the rejection made by Examiner in the last Office action.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Dupre et al.

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

Applicant's arguments are based on the missing characteristics of the reference such as low nitrogen content from 0 to 3% nor the alkalinity of from about 4 to 15 and the reference discloses a high nitrogen containing materials.

The following position is taken because the claims in this application are read as broadly as possible. Limitations from the specification as to how the phenol-formaldehyde resins are produced are not read into the claims.

The claims as presented are included within the broad teachings of the reference since they read on a phenol-formaldehyde resin produced from any methods having the claimed characteristics.

Applicant has presented no factual evidence to show why the product of the reference does not in fact having the claimed properties. Further the reference clearly disclose some claimed properties such as overlapping molar ratio, overlapping viscosity, overlapping solids content and overlapping pH.

Art Unit: 1711

Note that the pH relates to the acidic or alkalinity of the resins, of from 1 to about 7 is acidic and from 7 to about 14 is alkaline. Since the reference and the claims have the overlapping pH then the alkalinity must be overlapping also. Therefore, the only missing characteristic from the reference is a low nitrogen content. It must be considered inherent since all of the claimed characteristics are overlapping.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Duc Truong whose telephone number is 571-272-1081. The examiner can normally be reached on Monday-Friday.
